### About Simavita

Simavita is a medical device company operating in the digital healthcare sector that has developed an innovative, world first solution for the management of urinary incontinence, with a focus on the elderly. The first product is the SIM™ platform technology which is an instrumented incontinence assessment application that provides evidence based incontinence management care plans to the residential aged care market.

### About SIM™

SIM™ is a wireless sensor technology that delivers evidence-based instrument incontinence data on individuals. SIM™ provides user friendly tools and software to assess the incontinence condition and to help plan better outcomes. SIM™ is used to detect, record and report incontinence events during a compulsory or recommended assessment period in residential aged care facilities to develop an evidence-based incontinence care plan.

Conducting assessments is mandatory in many countries and the incontinence assessment creates an influential element of care of each individual. For more information on Simavita or SIM™, please visit [www.simavita.com](http://www.simavita.com).
